un-doku

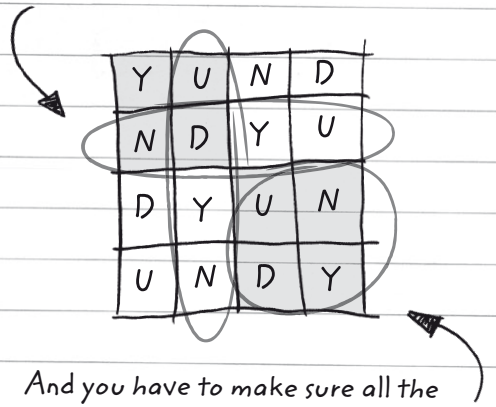
Yes! You have finished the first chapter. How easy was that? Reading is fun when you are good at it. Now here is your first reward for being a great reader. It is your first End of Chapter Reward.

This one is a puzzle. It is a puzzle called an Un-doku. It is just like a Sudoku puzzle, but it is about the Undys. That is why I have called it an Un-doku.

I have made three Un-dokus for you, but first here is a finished one to show you how to do them . . .

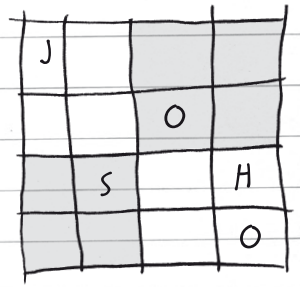
In this Un-doku you have to get all the letters of UNDY into each column – columns are the four squares going from top to bottom. The letters of UNDY can be any way around, like NDYU or DYUN, but they all have to be there.

You also have to make sure every row has all the different letters of UNDY in it. Rows are the squares going from left to right.

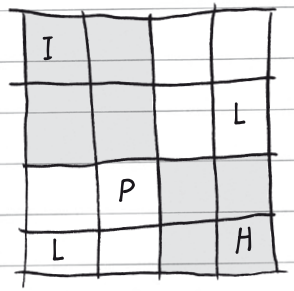


And you have to make sure all the letters of UNDY are also inside every box of four squares in each corner.

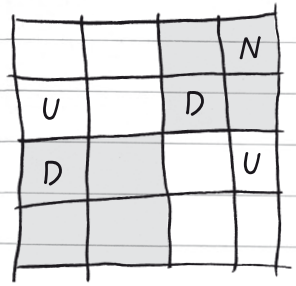
It looks tough, but you are clever. You will work it out. Here is one for you to fill in. First, work out what the four letters are, then fill in the gaps. Here is a clue to help you: The letters make up a very excellent name.
The four letters of this Un-doku make the word _____.



Here is another Un-doku. These four letters make up a name as well, but it is not quite as excellent as the last name. The four letters of this Un-doku make the word _____.



Now, here is your last Un-doku. This one is extra tricky. The letters do NOT make up the word UNDY, even though they look like they should. Here is a very important clue. The letters make up a word that is about Aunty Faber and how she embarrassed me and Dad. The four letters of this Un-doku make the word _____.



Now it is time to get back to my story. In the next chapter, Dad and I start our exciting new job as mannies for the Silvas.
