

Reward 2

letter swap

Woah. That is another whole chapter finished. You are a reading machine. You must have amazingly fast page-turning fingers. And very quick-moving eyes. You deserve a reward!

Your second End of Chapter Reward is a puzzle. But it is not an ordinary puzzle. It is one of my hardest puzzles yet. It will take all of your patience, all of your determination and all of your brain. But, if none of those work, you can always look at the clues on the next few pages, or even the answer at the end of the book.

This is a code-breaking puzzle. I have written a sentence below, but instead of using normal letters, I have used a mixture of letters and pictures. Each symbol is really a letter in disguise. All you have to do is read the sentence and work out which letter each symbol stands for. Then you will know exactly what the sentence says.

Here is the sentence:

+h*+ &¢d g%y with +he b*¢d he*d
is * bi+ &f * \$&&d¢e-\$%+!

It might help to write the letter each symbol stands for, as you work it out.

* =

¢ =

\$ =

& =

+ =

% =
