

Reward 3

dot-to-dot with Josh

You have done it again. You have read through another full chapter. You have used your eyeballs, your brain, your imagination and your page-turning fingertips to make it all the way. Because of that, you have earned a whole new reward.

This time it is one of my favourite types of puzzle – a dot-to-dot. All you have to do is draw lines between the dots – starting at the number 1 dot and going up in order to the last dot. When you are done you will be amazed to see the scary and angry drawing you have made.
